*Landscape Architect with
competence in Storm Water Management,
Urban Regional Planning, and Green
Technologies seeks productive experience
collaborating on design projects.*

EXPERIENCE

TREEOCRACY, multiple locations

2012 - Present

Owner/Designer

Treeocracy is my ongoing collaboration of site-based research and design investigations to implement new and emerging technologies in the landscape including edible landscaping, video rendering, and augmented reality.

Currently working for Carol Yetken at CYLA Design Associates in Oak Park, IL.

Past: Taylor Made Landscape Design, Nature's Little Recyclers, Nathan Wright Landscape Design, Mullin Landscape Associates, Coalition to Restore Coastal Louisiana, Gulf Restoration Network, Futureproof, EcoUrban LLC, the Plant

ALTAMANU, Chicago, IL

March 2018 - August 2019

Landscape Designer I

Applied my technical and artistic skills to the development of several renderings depicting potential changes for a large scale public project.

Developed construction drawings for municipal projects including playgrounds, streetscapes, and parks.

RATIO DESIGN, Chicago, IL

October 2017 - January 2018

Landscape Architectural Graduate

Contributed to the design of architectural and landscape projects across the Midwest with a focus on sustainable design and developing robust planting palettes.

DESIGN WORKSHOP, Chicago, IL

February 2017 - June 2017

Intern

Assisted with all stages of the landscape design process for multiple projects including a new neighborhood, Forest Park in St. Louis, and an NFL team.

CENDES 山鼎设计, Chengdu, Sichuan Province, China

May - August 2010

Landscape Architectural Intern

Acquired international design experience in a burgeoning market. Worked on hotels, large-scale developments, and learned a bit of Mandarin.

CITY OF BELLINGHAM, Bellingham, WA

July 2008 - August 2009

Stormwater Inspector

Enforced Best Management Practices for stormwater management. Collected and analyzed water samples to investigate threats to the local drinking water.
